Quote

“ Latino farmers, a group that often harvests specialty crops, will undoubtedly benefit from the \$1.6 billion allocated for fresh fruit and vegetable production. Resources will be funneled to Hispanic-Serving Institutions (HSI's) that have programs in agriculture, so that they can continue to improve on and pioneer new innovations in the agricultural sector. America must remain on the cutting edge of technology. With Latinos continuing to be an integral part of this industry, it is only wise to incorporate them and the institutions of higher learning that serve them, in efforts to promote this sector's growth.”
