Quote	"Compared with the crazy-quilt system we have now, the idea behind the health insurance exchange is almost weirdly simple: It's a single market, structured for consumer convenience, in which you choose between the products of competing health insurers (both public and private). This is not a new idea. It is how we buy everything from books to socks to soup. Everything, that is, except health insurance."	,,

Add or change this opinion item's references

This item argues for the position Act should be passed on the topic Patient Protection and Affordable Care Act.
