Quote

“ If we learned anything from Sept. 11, 2001, it is that we need to be better at connecting the dots of terrorist-related information. After Sept. 11, we used credit card and telephone records to identify those linked with the hijackers. But wouldn't it be better to identify such connections before a hijacker boards a plane? ”

Add or change this opinion item's references

This item argues for the position United States should begin data mining on the topic 2006 transatlantic aircraft plot.
