Quote

“The present Iranian regime is as dangerous and violent as Communist China at its worst. To call for an opening to this regime does not deny this fact. Isolation and recrimination, however, do not make for effective policy. The history of improved relations between Washington and Beijing since 1971 provides reason to believe that discussions are possible between the United States and Iran.”

”

Add or change this opinion item's references

This item argues for the position United States should negotiate with Iran on the topic Iranian nuclear crisis.
