

Discourse DB talk:Searching

The printable version is no longer supported and may have rendering errors. Please update your browser bookmarks and please use the default browser print function instead.

Looking at the Search Form I couldn't see how a person might query externally. Will there be an API? Can this be a Service? "Searching Discourse DB" would be interesting! -- BenTrem 19:20, 7 March 2007 (EST)

Well, it's not a service or API per se, but the data can all be queried using SPARQL or another RDF query language or tool. You can see a demonstration on the analysis page. Yaron Koren 13:35, 8 March 2007 (EST)
