**Quote**

“ Not surprisingly, the insurance companies hate it. They want the guarantee of millions of new customers without any restraint on prices or practices. Obama's plan would force them to make significant changes in the ways they do business. They can't refuse you insurance if you are already sick. They can't cut off your insurance if you get sick. They can't discriminate against women in health-care rates. These are big deals.”

Add or change this opinion item's references

This item argues for the position Act should be passed on the topic Patient Protection and Affordable Care Act.
