Quote

“Critics argue that we should ignore what’s actually in the legislation; when cost control actually starts to bite on Medicare, they insist, Congress will back down. But this isn’t an argument against Obamacare, it’s a declaration that we can’t control Medicare costs no matter what. And it also flies in the face of history: contrary to legend, past efforts to limit Medicare spending have in fact “stuck,” rather than being withdrawn in the face of political pressure.”

Add or change this opinion item's references

This item argues for the position Act should be passed on the topic Patient Protection and Affordable Care Act.
