Broadcast media's websites as sources

I'm new to the wiki, so forgive me if this is an obvious question.

I'm unclear on how, or whether, broadcast media such as CNN or Fox News fit into the scheme of things here. They *do* have websites and blogs where they publish opinion pieces, so it seems as if they ought not to be excluded here. Yet they don't fit clearly into any of the existing publication types because they aren't really publishing companies and they don't exist solely to run their websites/blogs. Is the exclusion of broadcasters an oversight, or is it by design? --LarryGilbert (talk) 22:03, August 29, 2012 (MSK)
