**Quote**

“ In this new world, giants like Amazon, Facebook and Netflix might end having to pay broadband providers for access to eyeballs. Smaller players have no such luxury, and they're scared. E-commerce depends on speedy, stable access. Increasing costs and adding a dollop of uncertainty could end up representing death by a thousand cuts for untold numbers of existing businesses. ”

Add or change this opinion item's references

This item argues against the position Net neutrality should be repealed on the topic Net neutrality in the United States.
