Quote	"What we need in Iraq is not a New Diplomatic Offensive (capitals in the original) so much as energy and competence in fighting the fight. From the outset of the Iraq war much of our difficulty has stemmed not so much from failures to find the right strategy, as from an astounding and depressing inability to implement the strategic and operational choices we have nominally made."	,								

Add or change this opinion item's references

This item argues against the position Iraq Study Group's recommendations should be followed on the topic Post-invasion Iraq.
