Quote

“ There are few, if any, more deserving causes than CHIP. The state-federal program provides health coverage to more than 6 million of the neediest Americans, and must be expanded to cover more. CHIP is the only safety net for these children, whose illnesses and injuries otherwise would be treated in pricey emergency rooms (which Bush is on record as approving), with the bills coming due to all Americans in higher taxes and insurance premiums.”

Add or change this opinion item's references

This item argues for the position Program should be expanded on the topic State Children's Health Insurance Program.
